Draft bill "Emergency measures for the confrontation of Violence in sports and other provisions"

Dear Mr Gkirtzikis,

Following your urgent fax received today on this matter, we would like to inform you that it is absolutely crucial for both FIFA and UEFA that all amendments as proposed by FIFA and UEFA in the letter sent on 2 May to the Greek Sport Minister and as explained to the latter during the meeting held on 4 May in Geneva are duly taken into account, which means without making any amendments to the wording of these proposals.

This being said, we are now very surprised to learn that some new changes seem to have been submitted today to the Greek Parliament. In this respect, we would like to remind you that any deviation from the joint FIFA/UEFA proposals might be considered as contravening the principle according to which all FIFA and UEFA member associations have to manage their affairs independently and without the influence of any third parties (as enshrined in both the FIFA and UEFA Statutes).

We thank you for taking note of the above and for communicating this information to all relevant parties that were present at the meeting held on 29 April 2015 in Athens.

Yours faithfully,

U E F A

Gianni Infantino
General Secretary
